SESB bags US\$41.6m Indonesia contract

KUALA LUMPUR: Scomi Energy Services Bhd (SESB) has secured a one-year US\$41.6 million (RM182.55 million) contract from Total E&P Indonésie (TEPI) for the provision of drilling fluids and completion services.

The contract is an extension of a previous three-year award which was signed with TEPI in 2012.

“We are pleased to continue working with TEPI and this contract is a huge vote of confidence by TEPI on our capability. This win is the result of our continuous active bidding despite the global slowdown in drilling activities,” said chief financial officer Ramesh Veetikat Ramachandran.

Indonesia has been SESB’s top performing market in recent years.

For the quarter ended September last year, it contributed over 24 per cent of the company’s total revenue of RM294.4 million.

Thailand, Myanmar and Vietnam’s combined revenue contribution was 18 per cent followed by Malaysia at 13 per cent.

SESB has been working to expand its product portfolio to include enhanced oil recovery, completion fluids and tools as well as well bore clean-up tools.

The company has commercialised its nano-fluid solutions in Malaysia and graphene-enhanced products in Myanmar.

It also plans to further promote its products to other markets in the Southeast Asia and the Middle East.

“SESB is in the midst of setting up a shale shaker screen manufacturing plant in Malaysia. Once completed, the plant will cater to demand in the Eastern Hemisphere,” said Ramesh.

SESB’s current order book stands at US\$1.78 billion. **Bernama**

SESB peroleh kontrak RM182.55 juta

Scomi Energy Services Bhd (SESB) memperoleh kontrak bernilai AS\$41.6 juta (RM182.55 juta) daripada Total E&P Indonesia (TEPI) bagi menyediakan perkhidmatan cecair penggerudian dan cecair siap.

Kontrak setahun itu adalah lanjutan kontrak selama tiga tahun yang ditandatangani dengan TEPI pada 2012, katanya dalam kenyataan di Kuala Lumpur, semalam.

"Kami gembira untuk terus bekerjasama dengan TEPI dan kontrak ini mencerminkan keyakinan tinggi TEPI terhadap keupayaan kami.

"Kejayaan ini adalah hasil pembidaan berterusan kami sekalipun kegiatan penggerudian global perlahan," kata Ketua Pegawai Kewangan syarikat, Ramesh Veetik Ramachandran.

Indonesia adalah pasaran paling berprestasi SESB dalam

tahun-tahun kebelakangan ini.

Bagi suku berakhir September 2015, ia menyumbang lebih 24 peratus kepada pendapatan keseluruhan syarikat, berjumlah RM294.4 juta.

Pasaran Thailand, Myanmar dan Vietnam menyumbang pendapatan digabungkan sebanyak 18 peratus, diikuti Malaysia sebanyak 13 peratus.

Perluas portfolio

SESEB sedang berusaha memperluas portfolio produknya untuk turut merangkumi antaranya perolehan minyak tahap lanjut, cecair dan peralatan penggerudian.

Selain itu, syarikat juga mengkomersilkan penyelesaian cecair nano di Malaysia dan produk grafen yang dipertingkatkan di Myanmar.

Syarikat juga merancang untuk

terus mempromosikan produknya ke pasaran lain di Asia Tenggara dan Asia Barat.

"Pada masa ini SESB sedang membangunkan kilang pengeluar penapis syal di Malaysia. Apabila siap kelak, kilang akan menampung permintaan di hemisfera timur," kata Ramesh.

SESB juga melabur dalam sistem rawatan air baharu menerusi kerjasama dengan rakan kongsi teknologi selain meneroka dalam pembangunan dan pengeluaran aset minyak dan gas.

SESB menyediakan perkhidmatan teknikal dalam pembangunan medan dan perkhidmatan pengurusan pengeluaran, pembangunan fasiliti pengeluaran serta perkhidmatan operasi dan penyenggaraan.

Kontrak dalam tangan semasanya bernilai AS\$1.78 bilion.

Scomi Energy order book gets US\$41.6m job extension

KUALA LUMPUR: Scomi Energy Services Bhd has secured an extension for its contract to provide drilling fluids and services to Total E&P Indonésie.

Scomi Energy, which provides services to the oil and gas industry, said on Friday the on-year extension to the original contract was valued at US\$41.60mil (RM183mil).

The contract is an extension from a previous three-year award which was signed with Total in 2012.

The extension is a boost to Scomi Energy, whose current orderbook is US\$1.78bil.

Scomi Energy chief financial officer, Ramesh Veetikat Ramachandran said the contract was a huge vote of confidence about its capability.

"This win is the result of our continuous active bidding despite the global slowdown in drilling activities," he added.

Indonesia has been Scomi Energy's top performing market in recent years. For the quarter ended September 2015, it contributed over 24% to the company's total revenue of RM294.4mil.

The combine revenue from Thailand, Myanmar and Vietnam was 18% followed by Malaysia at 13%.

Scomi Energy also said it had been working to expand its product portfolio to include enhanced oil recovery, completion fluids and tools as well as well bore clean up tools.

It also had commercialised its nano-fluid solutions in Malaysia and graphene-enhanced products in Myanmar.

It plans to expand its products to other active markets in the Southeast Asia and Middle East regions.

"Scomi Energy is currently in the midst of setting up of a shale shaker screen manufacturing plant in Malaysia. Once completed, the plant will cater to demand in the Eastern Hemisphere.

"In addition, we are investing in a new water treatment system in collaboration with a technology partner," he added.

Scomi Energy bags US\$41.6m contract extension in Indonesia

KUALA LUMPUR (Jan 15): Scomi Energy Services Bhd (SESB) (Valuation: 1.50, Fundamental: 1.00) has bagged a US\$41.6 million contract from PT Total E&P Indonesie (TEPI), Indonesia's biggest gas producer, to provide drilling fluids and completions services for one year.

The contract is an extension from a previous three-year award, which was signed with TEPI in 2012.

SESB's current orderbook stands at US\$1.78 billion.

"We are pleased to continue working with TEPI and this contract is a huge vote of confidence by TEPI on our capability. This win is the result of our continuous active bidding, despite the global slowdown in drilling activities," said SESB's chief financial officer Ramesh Veetikat Ramachandran in a statement today.

Indonesia has been SESB's top performing market in recent years. For the quarter ended Sept 30, 2015, it contributed over 24% of the group's total revenue of RM294.4 million.

Thailand, Myanmar and Vietnam's combined revenue contribution was 18%, followed by Malaysia at 13%.

Ramesh said SESB has been working to expand its product portfolio to include enhanced oil recovery, completion fluids and tools, as well as bore clean up tools.

"In addition, the group has commercialised its nano-fluid solutions in Malaysia and graphene enhanced products in Myanmar," it added.

The group plans to further promote its products to other active markets in Southeast Asia and the Middle East regions.

"SESB is currently in the midst of setting up of a shale shaker screen manufacturing plant in Malaysia. Once completed, the plant will cater to demand in the Eastern Hemisphere.

"In addition, we are investing in a new water treatment system, in collaboration with a technology partner," said Ramesh.

At 4.13pm, SESB traded unchanged at 23 sen, with 334,700 shares exchanging hands. It had a market capitalisation of RM538.6 million.
